> Jake M. Laguador Lyceum of the Philippines University – Batangas City, Philippines

## Abstract

This study aimed to determine the Academic Performance of the Business Administration 3<sup>rd</sup> Year students in Operations Management course in terms of the result of their Prelim Exam, Midterm Exam, and Semi-Final Exam. It also analyzed the Personal Entrepreneurial Competency rating. Results showed that the Business Administration students – major in Human Resource Development and Management obtained low score in Prelim and Midterm examination where they find it difficult to answer Math problems. Goal setting, Information seeking and Persistence are the Personal Entrepreneurial Competencies where the students obtained high scores. The demand for quality and information seeking revealed significant relationship in two major examinations in Operations Management.

Keywords: Entrepreneurial, Competency, Business Administration, Operations Management.

## Introduction

Entrepreneurship is the ability of individuals to perceive the kind of products or services that others need and to deliver them at the right time, to the right place, to the right people, at the right price. It is a science of converting ideas into business, a commercial or mercantile activity engaged in as a means of livelihood. The entrepreneur is one who organizes, manages, and assumes the risks of a business enterprise. Business opportunities exist at all times since no man can produce all the goods and services he needs in order to survive (Ditablan & Abad, 2009). Thus, entrepreneurship is undeniably an important source of income, an important strategy for creating new jobs and hastening the economic recovery and growth of the nation.

Entrepreneurship is one of the skills included in the Institutional Intended Learning Outcomes of the Lyceum of the Philippines University wherein the students would be able to engage in projects and activities using basic knowledge and skills in business management, entrepreneurship and finance management.

Operations management is an area of management concerned with overseeing, designing and controlling the process of production and redesigning business operations in the production of goods or services. It involves the responsibility of ensuring that business operations

Ryukaki: Really, don't sweat it. Ryukaki: And I never said "watched", I said I had to "see" her die, which I did, even if it was poorly worded. JarSqwuid: I really don't know what to believe Ryukaki: Typing in caps? JarSqwuid: It seems to have been a little more than fake though huh.... JarSqwuid: Oh okay JarSqwuid: Quia, you there? Quia: You do know he's going to read all this when he gets back? The Truth has always been right there. Ryukaki: I didn't see anything. JarSqwuid: There are a lot of people posting on his deviantart Quia: And you two are...? I never actually spoke to her. Or when Kelbris arrived? alicia: Because when people die, he throws death parties. Ryukaki: But he has never actually spoken to anyone. Ryukaki: They are a symbol of who you are. What the hell do you guys want. I'm gonna go to bed, too tired to function right now. JarSqwuid: Ahh, yeah I didn't get to that txt before it was removed, and no one will release it to me. JarSqwuid: I find it kind of hard to believe some of the responses though... JarSqwuid: Hmm... Not only that, but how did you even get involved with that insane cult... Exactly koko! Geo: Imfao Ali Xerot: Uh, besides Quia, who else has talked to him over the past 3/4 days? Leave the actual page strictly for just dumping content, go to the discussion/talk portion of the page to shoot theories back and forth and try and piece this together.3. We need theory crafters to analyze this and help out in the chat rooms - to be the most popular one right now - and on the forum - - so we can start getting some theories going and maybe start making sense of this. JarSqwuid: Has he eer mentioned the Truth? JarSqwuid: Why? JarSqwuid: Well besides this whole mess. Ryukaki: Everyone who claims it was exposed as a hoax. Ryukaki: I just don't want them doing what was done last time. JarSqwuid: Achieving this site becomes confusing. You could say we're the closest thing to the FBI we can in this case, Lol. DarkScythe: Quia? Here is a list of some of the jobs we need to do to make this happen. 1. We need several "companions" to spread the word that this is back, many of our good theorists had fallen in contact and if we are going to have any hope of defeating this we will need your help.
